• **Summary**

I've been working as a UX Designer since 2018 and my goal is to improve user interaction through a consistent interface. I moved to Lisbon in 2020 and since then I have been working with great teams and on projects for great clients, such as FC Porto, SNS 24, Altice, Alexandra Borges, Branco de Portugal, Jerónimo Martins, Jornada Mundial da Juventude, etc.

I also have a strong background in UI Design, with more than 15 years of experience developing interfaces for web environments, mobile apps and software. Working in various business areas, from fashion to medicine.

My focus is to create the best interaction environment for the product to be successful.

• **Highlight**

As an important starting point in my career as a UX Designer, I can mention the rebranding process that I participated in a Brazilian IT company in the medical and radiology sector, in Rio de Janeiro. Which resulted in the reformulation of the their main products. Such as softwares, web applications, mobile applications, web portals, dashboards, websites and systems.

Our biggest challenge was lead a very restrict public (doctors) to discovery and introduce new useful tech tools and features in their daily routine.

CAREER

- 2024

- **INETUM (GFI) - Lisbon, Portugal (Current)** - IT Outsourcing
 - **Job role: UI | UX | Tester.**
 - **Client: Radio Popular**

I was invited to join the project to speed up the process of redesigning the portal. I was in charge for meeting up periodically with the client (daily meetings), aligning expectations, reporting issues and bugs to be reviewed by the team and fixing it, and ensuring the correct application of the Design System. Working directly with the dev team (back-ends e front-ends)
